Understanding Your Medicare Choices

Step 1

Enroll in Original Medicare.

Original Medicare

Provided by the federal government

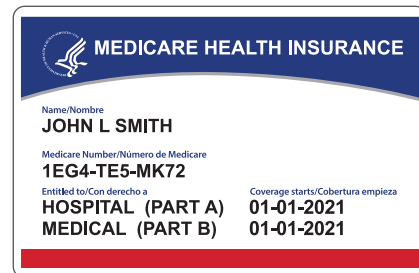

Part A

Helps pay for hospital stays and inpatient care

Part B

Helps pay for doctor visits and outpatient care

Step 2

After you enroll in Original Medicare, there are two ways to get additional coverage.

Option 1

OR

Option 2

Add one or both of the following to Original Medicare:

Choose a Medicare Advantage plan:

Medicare Supplement Insurance

Offered by private companies

Medicare Supplement

Helps pay some of the out-of-pocket costs that come with Original Medicare

Medicare Part D Plan

Offered by private companies

Part D

Helps pay for prescription drugs

Medicare Advantage Plan

Offered by private companies

Part C

Combines Part A (hospital insurance) and Part B (medical insurance) in one plan

Part D

Usually includes prescription drug coverage

May offer additional benefits not provided by Original Medicare

Eligibility and Enrollment

Medicare eligibility.

You're eligible for Original Medicare (Parts A and B) if:

You're at least 65 years old, or you're under 65 and qualify on the basis of a disability or other special situation. **AND** You're a U.S. citizen or a legal resident who has lived in the U.S. for at least 5 consecutive years.

When can you enroll in a Medicare Advantage or prescription drug plan?

Initial Enrollment Period

Your Initial Enrollment Period (IEP) is 7 months long. It includes your 65th birthday month plus the 3 months before and the 3 months after. It begins and ends 1 month earlier if your birthday is on the first of the month. You may enroll in Part A, Part B or both. You may also choose to join a Medicare Advantage plan (Part C) or a prescription drug plan (Part D). Although you are not required to enroll in Part D, there is a penalty of 1% of the average monthly premium for each month you delay enrollment.

Annual Enrollment Period, October 15 – December 7

During annual enrollment, you can add, drop or switch your Medicare coverage.

Medicare Advantage Open Enrollment Period, January 1 – March 31

If you're already a Medicare Advantage plan member, you may disenroll from your current plan and either switch to a different Medicare Advantage plan one time only, or go back to Original Medicare during this period.

Special Enrollment Period

Depending on certain circumstances, you may be able to enroll in a Medicare plan outside of the initial enrollment or annual enrollment time frames. Some ways you may qualify for a Special Enrollment Period are if you:

- **Retire** and lose your employer coverage
- **Move** out of the plan's service area
- Qualify for **Extra Help**
- Have been **diagnosed with certain qualifying chronic health conditions**

Special needs plans have other eligibility requirements.

The Advantages of Medicare Advantage

Medicare Advantage plans have high member satisfaction.

27+ million people enrolled in a Medicare Advantage plan as of May 2021¹

93% satisfaction among seniors with a Medicare Advantage plan²

25% less spent on health care compared to Original Medicare³

Compare your coverage.

Original Medicare doesn't cover all medical expenses and doesn't cover prescriptions.

10 things to know about Medicare Advantage.

- 1 You must continue to pay your Medicare Part B premium.**

Medicare then gives your premium to your UnitedHealthcare Medicare Advantage plan to help pay for your additional coverage.
- 2 Medicare Advantage has you covered.**

Medicare Advantage plans must cover all the services that Original Medicare covers and may offer additional benefits. Important: Hospice care is still covered under Original Medicare.
- 3 Joining a Medicare Advantage plan may affect your current coverage.**

If you have existing coverage or employer-provided health insurance and plan to work past 65, check to see how joining a Medicare Advantage plan could affect or cancel your current coverage.
- 4 It's best to use network providers.**

Use of network health care and pharmacy providers is typically required. Using providers outside of the network may cost you more. In an emergency, you can use any provider.
- 5 You may qualify for financial assistance.**

Depending on your financial situation, you may qualify for help paying your plan premiums or Part D medications through a low income subsidy or Extra Help.
- 6 If you enroll in Part D late, you may pay a penalty.**

This is an additional amount charged by Medicare that will be added to your Part D premium if you go without Part D coverage for longer than 63 days in a row after your Initial Enrollment Period. Medicare Advantage plans that include Part D coverage meet Medicare coverage requirements.
- 7 A Medicare supplement insurance plan (Medigap policy) is not a Medicare Advantage plan.**

Medicare supplement plans are health insurance policies and are secondary to Original Medicare. Medicare Advantage plans combine Original Medicare Parts A and B, and often Part D, into a single plan.
- 8 Keep your member ID card handy.**

Members must present their UnitedHealthcare member ID card, not their Original Medicare card, when receiving services.
- 9 Medicare Advantage offers the same protections as Original Medicare.**

Even though Medicare Advantage plans are privately administered, you still have the same rights and protections as with Original Medicare.
- 10 You have a built-in financial safety net.**

Your plan's annual out-of-pocket maximum is your safety net that ensures you'll never pay more than a certain amount out of pocket in a given plan year for covered medical services.

Prescription Drug Coverage

Understanding Medicare drug payment stages.

Your prescription drug costs change during the year, depending on which payment stage you are in. The stages start over on January 1 and the dollar limits can change each year. The coverage limits are determined by benchmarks set by the Centers for Medicare & Medicaid Services (CMS).

Payment Stages	Member Pays	Plan Pays	Stage Limit
Annual Deductible*	100% until you reach the plan deductible	0%	Varies by plan
Initial Coverage	A copay or coinsurance	Balance after copay and coinsurance	Total drug costs reach \$4,430
Coverage Gap (Donut Hole)	25% of your drug costs	5%–75%	Total out-of-pocket costs reach \$7,050
Catastrophic Coverage	A \$3.95 copay for generic drugs (including brand name drugs treated as generic) and \$9.85 copay for all other drugs, or 5% coinsurance for all drugs, whichever is greater	15%	Through the end of the year

*If your plan doesn't have a deductible, you skip this stage.

What's the difference between total drug costs and out-of-pocket costs?

Total Drug Costs

What you pay for prescription drugs each year, plus what your plan pays. Does not include your monthly plan premium.

Out-of-Pocket Costs

The total amount you pay for prescription drugs, including your deductible and any discounts paid by drug manufacturers while you are in the donut hole. Does not include what the plan pays or your monthly plan premium.

If you get **Extra Help** from Medicare with your Part D costs, ask your agent how the Part D deductible and coverage gap apply to you.

Pharmacy network

UnitedHealthcare has more than 65,000 network pharmacies across the country. To receive benefits, you must use an in-network pharmacy and show your UnitedHealthcare member ID card. You may receive additional savings on your prescriptions by using a preferred retail pharmacy or by using the mail service pharmacy and having your medications delivered to your mailbox.

Drug list (formulary)

A formulary is a list of the drugs that a plan covers. Each plan has its own drug list.

Tiered formulary

Many plans use tiered formularies to group covered drugs according to cost. For example:

- **Tier 1** – Preferred generic drugs
- **Tier 2** – Generic drugs
- **Tier 3** – Preferred brand name drugs
- **Tier 4** – Non-preferred drugs
- **Tier 5** – Specialty drugs

Step therapy

One way UnitedHealthcare can help you save money on your prescriptions is by offering lower-cost drugs that can treat the same medical condition as your current brand name drugs. You may be asked to try one or more of these lower-cost drugs before the plan will cover the brand name drug you are currently taking.

Quantity limits

Some drugs have quantity limits, where the plan will cover only a certain amount of a drug for one copay or over a certain number of days. The limits may be in place to ensure safe and effective use of the drug. If your doctor prescribes more or thinks the limit is not right for your situation, you and your doctor can ask the plan to cover the additional quantity.

Prior authorization

Before the plan will cover certain drugs, it may need more information from your doctor to make sure the drug is being used correctly for a medical condition covered by Medicare. You may be required to try a different drug before the plan will cover the prescribed drug.

Asking for an exception

If you need a drug that's not currently covered by your plan, you may:

- Ask the plan to cover your drug even if it is not on the drug list. This is known as a formulary exception.
- Ask to waive coverage restrictions or limits on your drug. This is known as a utilization exception.

Coverage decisions

If your doctor has submitted an exception request on your behalf, generally the plan will make a decision within 72 hours. You can request an expedited, or fast, decision if you or your doctor believes your health requires it.
